IPC Global Solutions Successfully Completes ISO 9001:2008 Recertification

Taunton, MA May 3, 2013 - *IPC Global Solutions* has successfully completed their ISO 9001:2008 recertification. Recertification was handled by TUV U.S.A. and is effective May 5th, 2013. IPC has now been certified for 11 years.

For the past decade, IPC has leveraged their ISO certification and the discipline it has provided for the organization to build a core business focused on quality and customer satisfaction. With a robust quality system leading the way, IPC has empowered its employees to serve their customers and meet their ever-changing requirements. Being re-certified to ISO 9001:2008 cements IPC's quality tradition as first class in the aftermarket.

"We are thrilled to be re-certified for ISO 9001:2008" says Steve Mitchrone, IPC's Distribution Manager and ISO Management Representative. "Our team internally works hard to leverage the best parts of our quality system in an effort to service our customers. I commend our quality team and our business operations managers for their leadership and thoughtfulness in implementing, updating, and living the core philosophies of our quality system."

"Quality systems are about saying what you do and doing what you say" Mitchrone continued. "I am proud that we say what we do, and do what we say every day for our customers. We would not want it any other way."

IPC Global Solutions, headquartered in Taunton, MA is a leader in the private label filter and wiper blade business. With a 35 year heritage of supporting the very best names in the aftermarket, IPC has built its success on delivering quality and service to customers all around the world.
