### **IPC Global Solutions Introduces**

#### **ECOGARD Synthetic+ Oil Filters: The Perfect Match for Synthetic Oil Changes**

Taunton, MA, January 20<sup>th</sup>, 2014 - IPC Global Solutions is pleased to announce the addition of **ECOGARD Synthetic+ Oil Filters** to the ECOGARD product line. The ECOGARD Synthetic+ range of oil filters is comprehensive line of 34 extended protection oil filters including coverage for all popular applications and extended coverage for European and other import vehicles.

As OE car makers factory-fill more engines with synthetic oil, it is critical that service professionals have the product range to match.

**ECOGARD Synthetic+ Oil Filters were built to be paired with synthetic oils and extended OE drain intervals by offering high efficiency filtration and more than 2x the filtering capacity of regular oil filters.**

ECOGARD Synthetic+ Oil Filters are manufactured with a synthetic blend filtration media and silicone anti-drainback valve to provide extended engine protection. Our custom blend media provides 2x the filtration capacity of a normal oil filter and is designed specifically to protect engines longer.

ECOGARD Synthetic+ is in stock in IPC warehouses in Boston, MA and Los Angeles, CA as well as available in direct import containers.

IPC Global Solutions, headquartered in Taunton, MA is a leader in the private label filter business. With a 35 year heritage of supporting the very best names in the filter business, IPC has built its success on delivering quality and service to customers all around the world.
